TESTIMONIAL from HERR PRIEDENTHAL To Masses. Lane Crawfold & Co.

SHANGHAI BANK, to be placed on Pianos are the very best I have found in the East. Durner of Stuttgert is one of the first Planoforta makers in Gormany. The tone of their instruments is singing and powerful, the touch extremely pleasant and the repetition perfect.

"I have found their instruments, often, abroad, for instance in the northern part of Brazil, where perhaps still more unfavourable climatic conditions are existing, than here, and where the Dorners, in spite of this, have kept for many years splendidly, so much so, that I am also able to recommend them in regard to solid construction and durability as most excellent. (Signed) "ALB, FRIEDENTHAL."

(The original-in German-can be seen at L. C. & Co.'s).

THE FOLLOWING SECOND-HAND INSTRUMENTS ARE OFFERED AT VERY LOW PRIJES. Each Piano is guaranteed in thorough condition and for climate: -

HONGKONG, SATURDAY, JUNE 4, 1892.

It is to be hoped that we have now heard the last of the proposal toestablish in Hongkong a department for the registrati n of imports and exports. The very clear and convincing etatement of reasons submitted by the Committee of issue, but will appear on Monday. the Chamber of Commerce against such an int reference with the trade of the Ar the Magistracy to-day, Mr Wodehouse port ought to dispose of the question fined a Chinaman \$1 for besting a gong in once for all. The opposition to the Third Street during the night time. proposal, from the first, has been much too strong to be overlooked. The Agent informs us that the Occidental with time that to effect the sug-gested legislation now would be to San Francisco for Hongkong via Yokohama take the extremely dangerous step of on the 2nd instant. passing an Ordinance vitally affecting the commerce of the colony against Tuz Canadian Pacific Railway Co.'s R. M. the unaminous protest of the com. S. Empress of Japan, from Hongkong 28th mercial community. Having regard to May, arrived at Kobe at in duight on Frithe peculiar nature of the conditions day, and left at 2 p.m., to-day (Saturday), under which the trade of Hongkong is for Yokohama, Victoria and Vancouver. carried on, and on which the very can easily conceive that the Secretary For having unlawfully in her possession of State for the Colonies would have fifteen taels of prepared oplum, Mr Wode. some difficulty in seeing how the house to day fined a married woman \$50, collection and publication of the returns with the alternative of six months impriin question should prove detrimental sonment. to the interests of the colony. The same difficulty has apparently, for a time, been experienced by some persons who might be presumed to possess a fairly ac-

that there could be said to be unanimity on the subject even among the members of that body. These instances Goods per Melpomene undelivered after of late conversion, however, only bear testimony to the soundness of the principles on which the opposition to registration is based. We have not the slightest doubt that the Governor will be able to recognise and appreciate the force of the arruments put forward by the Chamber of Commerce, and that he will give emphasis to the opposition by an expression of his own views on the sub-

ject. When His Excellency recently decided against Mr. Whitehead on the question as to who should be chairman of the Po Leung Kuk Commission, he Landon House, and bought direct from the fell several degrees' in the estimation most noted Shippers, are imported in wood of the Daily Press. He need not be deterred from backing up the Chamber of Commerce on the present question by a dread of anything so serious as Our contemporary is the very convert to anti-registration having apparently become convinced that the wind is actually blowing from that quarter and none other. After doing his best for a considerable time to forward the registration scheme, our contemporary discovers the astonishing fact that in this colony trade is very consitive, and that 'it curls up, so to speak, at a touch. Extending the botanical simile, he says that if any attempt were made to tamper with the freedom of the port, confidence, that plant which is so essential to the expansion of trade, would have been eliminated; the flower would cease to blossom: and the trade would gradually dwindle." Therefore the plant must be spared and the flower allowed to blossom, even although this implies that the colony will be denied the advantage of contemplating annually certain statis-ties which would be both useful and interesting. It has been stated over 1.10 and over again, by those who ought to know, that all the trade statistics of practical utility and interest to the colony are to be found in the publications of the Chinese Imperial Maritime Customs. Even admitting that from the Pints. statistician's point of view some advantage might be derived from the establishment of a registration department, it would undoubtedly be, as the Committee of the Chamber of Commerce. very moderately put it, an unwise experiment, merely for statistical purposes, to endanger in any way the prosperity and well-being of

> THE suggestion of 'H. P.' in a letter to the St. James's Gazette that three battalions of infantry should be raised in Australia for service in India, is one which at first sight has a taking look about it, but -a little consideration excites doubt as to its practicability. We can burdly believe that Australia would be able to furnish for service in India three efficient battalions. Wages are high and the class of men whom it would be desirable to recruit can hardly exist in sufficient numbers to furnish such u contingent. Australia may, as 'H. It may, however, be worth while to ask the Australian Governments whether they could furnish such a force, for if they can, the idea would morit attention .- Overland

Trubner's Oriental Record contains the following notice of the China Replew:-The present publication, judging by the number now bettere us, is intended to occupy a position, as regards China and the neighbouring countries, some what similar to that which has been filled in India by the Calculta Review ... The great degree of attention that has been bestowed of late years upon the investigation of Chinese literature. antiquities, and social develunments, to sav nothing of linguistic studies, has led to the accumulation of insportant stores of informstion, condering some such channel of pubheity as is now provided extremely desirable; and contributions of much interest may fairly be looked or from the members of the foreign consular services, the Chinese Customs' corps, and the missionary body. among whom a high degree of Chinese scholarship is now assiduously cultivated. and who are severa ly represented in the first number of the Bisten by papers highly creditable to their respective authors . Some translations from Chinese novels and plays are marked by both accuracy and freshuess of style; and an account of the career of the Chinese post-statesman of the eleventh de, all of the same weight, to addresses century, Su Tung-p'o, by Mr. E. C. Bowrs, Hongkong, or the Ports of China, m a not only historically valuable, but is also deliver them to the Post Office unstampe listinguished by its literary grace. Beside the postage being then charged to t notices of new books relating to China and sender's account. Each batch must co the East, which will be a useful feature of sist of at least ten, the Review, if carried out with punctuality and detail, we are glad to notice that 'Notes' and 'Queries' are destined to find a place in its pages also. It is to be hoped that this opening for contributions on Chinese subjects may evoke a similar degree of literary zoal to that which was displayed during the lifetime of its predecessor in the field, and that the China Revisic may receive the support necessary to insure
